Resync Missing Item from Proseller to Magento

1. Go to the Proseller page.
2. Search for the missing item.
3. Rename the item by adding something at the end, such as “-A”.
4. Save the item.
5. Then, change the item name back and remove the added text.
6. Save the item again.

For example this item is missing proseller

ID

92c524d2-ed33-4402-b53e-57d54b027e8a

Name

"KING" BIRD REPELLENT 100ML

Description

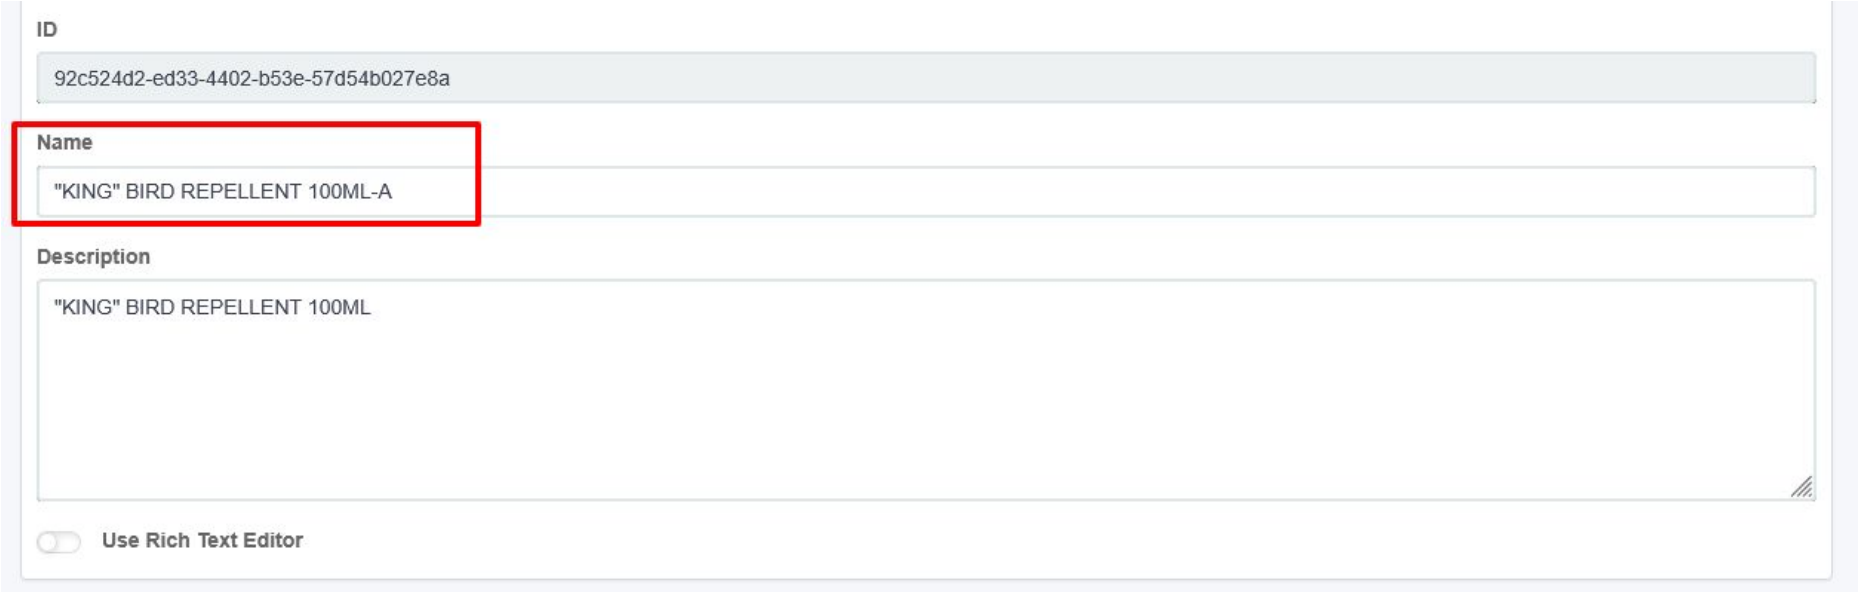
"KING" BIRD REPELLENT 100ML

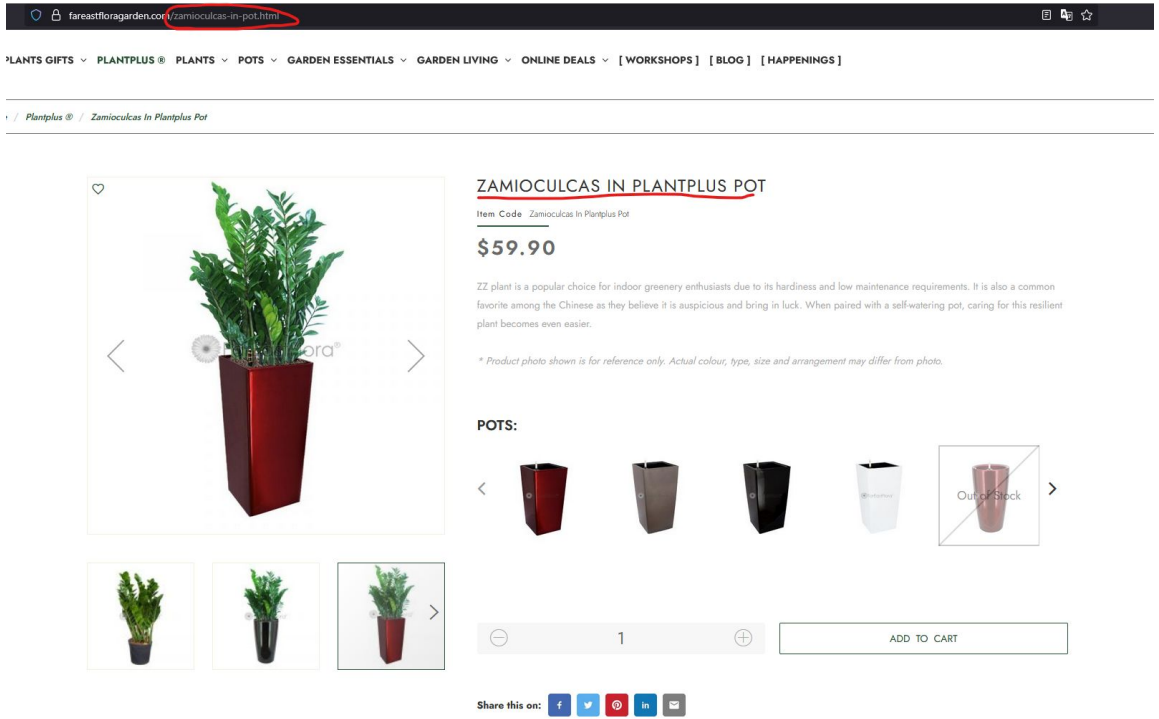
Use Rich Text Editor

Add something at the end, such as “-A”, save it.

change the item name back and remove the added text.

Save the item again.



The reason


Magento requires unique item names to generate items and their corresponding URLs. However, FEF sometimes uses different Item Numbers while keeping the same item name.
